- MS 'Capstone Project' advisor for City and Regional Planning Department at NYU, 2000-04 (8 MS student theses).
- Thesis Advisor, Masters in City Planning (MCP), Department of Urban Studies and Planning (DUSP), MIT, 6 theses, F91-S94.
- Academic Advisor, MCP, DUSP, MIT, F91-S94.
- Academic Advisor for Special (mid-career) Program in Urban Studies, Developing Areas Group, DUSP, MIT, F91-S94.
- Mentoring Through Research: My hiring, supervising and mentoring of young African researchers for my WRI-based research programs involved extensive advising and teaching. I have guided over fifty young African researchers through field-based basic research from the research design phase through field work, analysis, write up, and publication. Each project also involves methods workshops, mid-term research seminars, findings presentation workshops, and the writing of both popular articles and scholarly publications. These publications start as working papers. Many have become book chapters or journal articles. 1999-06. My research programs (not counting my students) have mentored over 80 young researchers to the point of publication. 1999-2016.

ACADEMIC ADMINISTRATION

Academic and research administration: 2008-2018 I was founding director of the SDEP cross-campus program. This program involves producing a vision for an integrative campus-wide discussion of and development of environmental policy research efforts; raising funds; organizing a speakers series; recruiting faculty fellows, post-doctoral fellows, and research assistants; coordinating conferences and events; designing and writing the web page (see URL below signature); and sitting on a number of campus-wide committees. Other department committees I serve on are listed below. My roles in WRI research programs, before coming to Illinois, included: 1) envisioning and creating them; 2) framing and designing the research; 3) training research teams; 4) conducting field research; 5) organizing and facilitating conferences; and 6) synthesizing, publishing and diffusing the scholarly and policy results. My administrative responsibilities involved fundraising (to support the programs, researcher and staff salaries, my salary and overhead), attracting and hiring high-quality young scholars, negotiating budgets and contracts with researchers and their institutions, budget management, grant management, and reporting. My roles also included the oversight and mentoring required to train and guide a diverse group of young scholars to conduct serious comparative policy research. SDEP is Archived at [URL: TBA](#)

- Grant reviews for many agencies – NSF, SSRC, DFID, World Bank, EU, Canada Research Council, etc.
- External reviewer for many journals over many years. See editorial board memberships above.

CONSULTANCIES (ALSO SEE PROFESSIONAL REPORTS, ABOVE)

- 4-7/15 **Advisor to European Union Directorate General for International Cooperation and Development.** Advised on decentralization policies, spoke at decentralization workshop and wrote short piece to guide front-line EU development workers: “Choice and Recognition in Decentralization: Promoting Local Democracy through Development Interventions.”
- 11/13-5/14 **Consultant to USAID/WRI on review of USAID NRM Programs in Senegal.** Advisor to evaluation team and supervisor of survey research for a 30 year retrospect of the Nature, Wealth and Power framework of USAID as applied in the Wula Nafaa program in Senegal.
- 7/11-2/12 **Consultant to USAID/MSI on enhancing Democratic forms of Accountability.** Review of the literature with Arun Agrawal.
- 2/10 **Consultant to USAID on Comparative Study of Local Democracy in Africa:** Developing Framework for Analysis. ARD.
- 1/09 **Consultant to United Nations Capital Development Fund:** Developing presentation as keynote speaker for the UN Global Conference on Local Government, Addis Ababa, Ethiopia, October 2009.

- 7/08-8/09 **Consultant to World Bank Social Development Group, Climate and Social Vulnerability Review:** Developing chapter for SD volume on climate, governance, and social vulnerability.
- 2/07-9/08 **Consultant to World Bank Project on Local Council Oversight and Social Accountability in Africa (Ethiopia, Kenya, Tanzania and Uganda):** Wrote concept and methods note for a comparative research project on local government accountability (June 07). Led methods meetings in Dar es Salaam for Tanzania and Uganda research teams (July 08).
- 7/06 **Consultant to Ford Foundation and State Forest Administration (SFA) of China:** Worked with SFA staff to help them develop a policy experiment on the decentralization of China's forestry sector. The focus was on elimination of the quota system and reconstitution of collective forestry under administrative village authorities.
- 9/03-12/04 **Consultant to World Bank, Natural Resource Management Cross-Sectoral Team:** Review of how environmental management is incorporated into World Bank's Community-Driven Development (CDD) projects.
- 1/99 **Political Economy Advisor, U.S. Agency for International Development, Guinea:** Evaluation of Democracy and Governance cross-sectoral linkages with Natural Resource Management projects in USAID in the Republic of Guinea.
- 12/98-1/99 **Institutions and Governance Analyst, World Resources Institute:** Writing the Conceptual Framework Paper for the World Resources Institute International Conference on Institutions and Governance in Natural Resource Management.
- 8-11/98 **Political Economy Advisor, Chief of Mission, U.S. Agency for International Development, Mali:** Analysis of ongoing credit union and cooperative law reforms in Mali.
- 3-5/98 **Policy Advisor, United Nations Capital Development Fund (UNCDF):** Advisor to UNCDF Task Force on Participatory Eco-Development and Local Development Funds.
- 11/97-1/98 **Consulting Institutional Analyst, World Bank:** Analysis of the history and structure of representation within four 'participatory' natural resource management projects in four countries of the West African Sahel
- 6/94-1/95 **Consulting Forestry Policy Analyst, World Bank/Government of the Netherlands:** Research on the institutional basis for decentralization of forest management in Senegal, Mali, Burkina Faso, Niger and The Gambia.
- 5-6/92 **Negotiator, Environment and Development in the Third World (ENDA, a Dakar-based Pan-African Research NGO), UNCED, Rio de Janeiro, Brazil:** Represented ENDA in the NGO Forestry Treaty negotiations.
- 12/91-1/92 **Consultant, Esquel Brazil Foundation, Fortaleza, Brazil:** Prepared synthesis document and conference-summary presentation for the seventy papers presented at the International Conference on the Impacts of Climatic Variations and Sustainable Development in Semi-Arid Lands (an UNCED preparatory event).
- 3-4/90 **Consultant, Lawrence Berkeley Laboratory:** Co-authored proceedings preface for conference on the role of tropical forests in global warming (submitted to IPCC).

11/83-8/84 ***Energy Analyst, USAID/VITA, Djibouti, East Africa***: Carried out a national energy assessment for Djibouti.

FILM, ANIMATION AND VIDEO

Short Animation:

“Climate Refugees?” is a 4-minute animation that explores how migrants from the Sahel are depicted as ‘climate refugees’ despite that their emigration is driven by a much larger set of political economic and social problems. Video published September 2018. The video is based on Ribot, Faye and Turner 2019 (in *Public Culture*). This video can be viewed at: <https://vimeo.com/292115641>.

“Weex Dunx and the Quota: Plucking Local Democracy in Senegal,” (24-min. drama Wolof with English, French and Spanish subtitles), published 2007. Co-directed by Jesse Ribot and Pape Faye.

Synopsis: Mr. Weex Dunx (Mr. Scapegoat), the elected President of the Rural Council of Nambaradougou (Place of many problems), is ecstatic to learn that new decentralization laws have given his council the right to manage and use forests. The council now has the right to decide how much woodcutting will take place in their jurisdiction and who gets to do the cutting and selling. But, when Weex Dunx tries to exercise his new powers he is confronted by incredulous foresters, administrators and merchants who are in shock that he thinks he can make decisions about the forests. Exasperated because these powerful notables don’t like him if he resists and his people don’t like him if he gives in, Weex Dunx is torn between doing what is right for his community and surrendering to pressures from powerful people whom he does not want to disappoint. *Copies on DVD or CD can be provided on request.* [The research for this film is presented in Ribot 2009 article in *Development and Change*.]

Semmiñ Ñaari Boor (Double Bladed Axe) (50-min. drama—Wolof with English, French, Spanish and Portuguese subtitles), published 2010. Co-directed by Jesse Ribot and Pape Faye.

Synopsis: When a villager discovers migrant woodcutters cutting their village forests, she and her husband wake up their neighbor to confront the intruders. But the intruders come armed with forest service permits. In the film, the forest villagers are convinced by the ‘Manage the Forest’ project, funded by Mega Bank, that to get rid of woodcutters they will have to cut the forests themselves—to make charcoal to supply the city of Dakar with cooking fuel. In lieu of migrants running off with the profits from their rich forests, they can have significant income. The villagers decide to try it out. In the first year the work is

very hard and the profits are nil. They are selling their charcoal to rich merchants at the forest edge. But the villagers want to sell in the city where they hear the price is high. The project works hard to help them to get permits to sell in the city. The woodcutting villagers return with so much money after selling one truckload that their eyes are opened to the amazing profits they have been missing out on—indeed, profits they feel robbed of. Determined now to sell all their charcoal in the city, they face obstacles thrown in their way at every step by the forest service and the merchants. Frustrated that they are only getting the profit from one in ten truckloads of charcoal, they decide to rise up and organize. They form a federation to protect their interests. [The research for this film is presented in Larson and Ribot 2007; Ribot 2009; Poteete and Ribot. 2011. DESCRIPTION OF FOUR RESEARCH FOCUS AREAS

My research on ***access theory*** (Ribot 1998, Ribot and Peluso 2003 and applied in multiple cases since) provides an empirical means for analyzing the role property plays in shaping the distribution of benefits from ‘things’ (such as natural resources). I introduced access theory as a way of explaining how, irrespective of direct control or title over a resource, some actors are able to profit from nature while other are not. The approach locates empirical explanations in the relations among the actors who gain, maintain and control access and the multiple instruments through which they do so. My theory of access, later extended in collaboration with Nancy Peluso (Berkeley), frames ‘property as the *right* to the benefits from things’, while ‘access is the *ability* to benefit from things’. This simple shift from ‘rights’ to ‘ability’, broadens the analysis of distribution from the legal to include the illegal and extra-legal—allowing a full empirical analyst that includes social and political-economic factors, such as complementary access to capital, markets and labor, and relations of gender, identity, discourse, force, stealth and violence, in the analysis of property relations. This article inspired a meeting in July 2017 in Utrecht on the effects of access theory rural sociological studies. The meetings will lead to a Journal special issue.

My second arena of focus is ***democratic decentralization theory***. Based on Ribot 1995, Arun Agrawal (U. Michigan) and I developed the ‘actors, powers and accountability’ framework for analysis of democratic decentralization (Agrawal and Ribot 1999; also see CV for many articles on this topic from 1995-present). Previous writings on decentralization broke decentralization into Political, Administrative and Fiscal components. However, these categories had little analytic leverage. Despite all being treated as parallel categories, two are about *who* receives powers (local political actors or administrators), while one is about a power that is transferred (fiscal resources). While each of these components can be analyzed, as a package they tell us little about which actors with what kinds of powers might lead to the theorized outcomes of efficiency and equity. With Agrawal, I was able to create an analytic approach that links the elements of decentralization to a theoretical analysis of the institutional arrangements that are believed to produce positive outcomes. This framework is now widely used in analysis of decentralization in most sectors. Since 2006 I have developed this work into what I call theory of ‘choice and recognition’. This more-recent research informs the RFGI program discussed above. It focuses attention on the knowledge and politics of intervening agents (government,

international agencies, large NGOs) charged with promoting local democracy and then looks at the effects of their interventions on the recognition of local authorities. In particular it examines the effects of this recognition on representation, belonging/citizenship, and the opening of a public domain (the space of democratic practice) (for Choice and Recognition, see Ribot 2006, 2007, 2011; and Ribot, Chhatre and Lankina 2008).

Third, is **vulnerability theory**. My 1995 (also see Ribot 2009 & forthcoming 2013) article on causal structures of vulnerability helped define the field of vulnerability studies by synthesizing existing elements of theory and empirical research to produce policy-targeted analysis of the causal structures of vulnerability. I then co-authored the first volume on climate change and vulnerability (Ribot, Magalhães and Panagedes 1996). My framework on vulnerability guides a full analytic accounting for the causes of crisis in the face of climate variability and change, contextualizing the role of climate among other factors in producing vulnerability. This approach has the analytic advantage of being able to identify causes of vulnerability that develop at multiple spatial and temporal scales, helping to identify the institutions at various scales that could contribute to vulnerability reduction. Since 2015 I have been working on a case study of vulnerability out-migration from Senegal to Europe via Libya. That work is ongoing.

Lastly, I have developed **commodity chain analysis** as a policy tool. I have used this framework as a means for analyzing the distributional equity effects of environmental policy (see Ribot 1998; Larson and Ribot 2008; Poteete and Ribot 2011). My research shows how natural resource policies shape the distribution of benefits (access to profits and to the resource) and can intensify the environmental consequences of natural resource use and extraction. My commodity chain approach to environmental policy analysis is widely used. My analytics differ from others in the field due to my focus on the sociology of how market operators maintain margins and market shares and the ways that policy supports their ability to do so.

Art Exhibit: Woodrow Wilson International Center for Scholars hosted an opening of works I commissioned by the renowned Senegalese reverse-glass painter Mor Gueye. These paintings were commissioned to illustrate a children's book—*The Business of Sustainable Development: An African Forest Tale*. The paintings showed in the Woodrow Wilson Gallery Space from 15 April - 15 June 2005. [Images from this exhibit are used in 'Children's Story' below.]
